

DCT-9 - Cable Tester

The DCT-9 cable tester provides a fast and accurate way to automatically test many varieties of cables. The digital test program analyzes cables for correct wiring and displays any faults on the numeric display. A built in test tone oscillator generates 440 Hz and 1 kHz tones for basic signal path tracing.

- Tests:
 - XLR
 - RCA phono
 - RJ-45
 - 1/4" TS
 - 1/4" TRS
 - BNC
 - TT Patch
 - NL4
 - 1/8" TRS
- Hands free automatic testing.
- Indicates several fault types including shorts, opens and crosswired conductors.
- Automatic shutoff preserves battery life.
