

ENC1 Cable

Part #: ENC1+(length in feet)
Eg: ENC1100 for 100' length

Certain situations require a special CAT-5 cable that can stand up to heavy duty use and abuse - such as FOH to amp racks or with the Whirlwind [E Snake](#).

The Whirlwind ENC1 cables will survive the toughest conditions, maintain critical data transmission and yet coil easily again and again.

Features:

- Metal W1 style connector shell with dustcap and heavy duty RJ45 jack.
- Genuine KellemsTM strain relief.
- Low capacitance / high temperature inner jackets.
- Flame retardant ultra tough outer jacket.
- Fine stranded 24AWG conductors for strength and flexibility.
