

## Floor Pockets FP3 and FP-4

---

Whirlwind FP-3 and FP-4 units feature removable bottom and end panel(s) to facilitate custom punching and engraving. (The FP-3 has one interchangeable panel on one end, the FP-4 provides panels on both ends.)

Cable-clearance slots in the doors allow it to close over cables when in use and the FP-4 features a second separate hinged section that can remain open if the pocket is used with large diameter cable.

Both the FP-3 and FP-4 are deep enough to contain multipin connectors including Whirlwind's MASS series.

### Nominal Outside Dimensions:

#### FP-3:

Box: 10" x 10" x 4.5"

Lid: 12" x 12"

#### FP-4:

Box: 18" x 10" x 4.75"

Lid: 20" x 12"

### Optional back boxes are available:

FP-3BB6 - for FP-3 10" x 10" x 6" deep

FP-3BB8 - for FP-3 10" x 10" x 8" deep

FP-4BB8 - for FP-4 18" x 10" x 8" deep

(Click [here](#) to view a detailed spec sheet, 2MB in PDF format.)

Below is a custom loaded and engraved FP-4 floorbox. The magnetic auxiliary lid allow plenty of access room for the cables when they are connected while keeping the rest of lid closed.
