

HOTBOX QUAD

Four channels of HotBox performance come in a 1U rack package with built-in power supply. The HotBox Quad provides premium quality DI performance that works equally well in the studio and on the road.

Model # - HBQ

Input Impedance: 1 Meg Ohms

Frequency Response: 20Hz-150kHz \pm 3dB

Residual Output Noise: -115dB

Maximum Input Level: +20dBm - 48V phantom. Add 20dBm with pad engaged.

Power Requirements: 115/230 VAC 50-60Hz or 48V phantom power

Current Draw: approximately 4.0mA DC
